Allowable bidding areas in the west:

Killybegs
Havsbrun
Killybegs – Havsbrun
Killybegs – Havsbrun – Island (possibly one of the areas in Iceland)
Island South
Island South/East
Island North/East
Island North
Island (all)

Catches equal to or below the specified limits of 300/500 tons in the various areas can be sold without auction.

Factories in Denmark will in every case be in the same bidding area.

Generally, as earlier on auction, the minimum area must include two active (in operation at the present time) buyers and all the factories/plants the vessel passes, must be included in the bidding area.
